-------	-----------	---------	----------	--------------	------------	----------

\*Initial Private Sector Investment estimates are reported for most projects funded through EDA's Public Works and Economic Adjustment Assistance programs, and do not include local matching funds. For projects that do not include initial Private Sector Investment estimates in this table, economic impact of the project is measured through job creation and retention estimates. EDA's performance measurement process is based on a third-party, peer-reviewed methodology, and includes validation of grantee estimates at 3, 6 and 9 years following an award.
