

WHO WE ARE

NCGrowth, an EDA University Center founded in 2012, works to create shared prosperity by providing technical assistance to businesses and communities to generate good jobs and equitable opportunities.

IMPACT

Since 2012 NCGrowth has worked with over 140 businesses and 81 community clients, and has helped create and retain 650 jobs and generate \$10 M of new investment in North Carolina.

PROJECT WORK

- **Technical support** to promising businesses so they can grow, hire more people, and create wealth.
- **Applied research** for towns/counties/tribes to help create more robust local economies with equitable opportunities for residents.
- **Evidence-based research** for policymakers across the U.S. on how to build more inclusive and resilient local economies.
